### 4.4 Staff and Student Appointments at NCAR

**Description of appointment types:**

**Postdoctoral Fellowship:** Recent PhD recipients beginning their scientific research.

**Graduate Research Assistant:** This is a formal program in which Graduate Students are hired as Graduate Research Assistants and are NCAR-paid employees with a position title of Graduate Research Assistant I or II.

**Graduate Students:** This metric lists student who are graduate students and are also paid NCAR employees, but are not Graduate Research Assistants I or II.

**Undergraduate Student Assistants in Science and Technology:** Undergraduate students with scientific and/or technology majors who are UCAR/NCAR paid employees.

**Undergraduate Student Assistants in Other Fields:** Undergraduate students with majors in non-technical fields who are UCAR/NCAR paid employees.

**SOARS Students:** SOARS students are reported solely by UCAR’s Education and Outreach.

**Joint Appointments:** The primary entity is responsible for reporting metrics for staff with joint appointments. Joint appointments are listed with the primary entity & lab first and the joint entity and lab second (e.g., HAO/SCD and ESSL/CISL). If the joint appointment is 50/50, please work together and coordinate the reporting so that only one entry is reported.

**If a joint appointment is part of an Advanced Studies Program (ASP) program, ASP is responsible for reporting.**

**If an appointment is part of the UCAR Visiting Scientist Program (VSP) program, the NCAR entity is responsible for reporting.**
